

THE UNIVERSITY  
*of* ADELAIDE

== 50 ==  
Years

Class of 1972  
Golden Jubilee

# Welcome message from the Vice-Chancellor and President

It gives me great pleasure to welcome the class of 1972 back to the University of Adelaide to celebrate your Golden Jubilee reunion. We are delighted to be a part of this milestone – to share the joys of meeting with old friends and to learn more about your inspirational life stories.

We are incredibly proud of our alumni and the significant contributions they have made to their communities and wider society. You are among almost 160,000 alumni in 147 countries around the world. You are our greatest achievement and our strongest ambassadors, representing and connecting us locally and globally through business, industry, government, and as volunteers.

This is a fantastic opportunity to celebrate the 50th anniversary of your graduation with fellow graduates, friends, and family. It provides the chance for you to return to your alma mater and reconnect

with the people, places and events that contributed to your university journey. During your time on campus, we hope you enjoy the opportunity to take tours and speak with current staff and students. Please know you are always welcome back to campus.

The University of Adelaide will also celebrate 150 years in 2024. As we approach this milestone, we will stay in regular contact with our vast alumni community, including you. There are many ways to remain connected and I encourage you to join us at any of our alumni events, research seminars and concerts at Elder Hall.

Thank you to everyone who has contributed to this book by submitting your biographies, memories, and photographs. Your valuable input helps to make this booklet a treasured memento of your Golden Jubilee. I look forward to reading the contributions you have made to your professions and communities over the past 50 years.

I trust that your graduation day was a memorable experience 50 years ago, and I hope the Golden Jubilee reunion is just as significant for you.

Thank you.

Professor Peter Høj AC  
Vice-Chancellor and President

# Past Golden Jubilee Addresses

Class of 1972 Golden Jubilee

The first Golden Jubilee Commemoration was held in 1986 to coincide with the 50th anniversary of the opening of Bonython Hall.

The graduates and diplomates of 1936 who returned to the University for that first Golden Jubilee Commemoration began a tradition that is being continued this year by the graduates and diplomates of 1972.

The previous Golden Jubilee Addresses have been delivered by:

- 1986 C Warren Bonython AO
- 1987 The Hon Dr John J Bray AC
- 1988 Helen Crisp AM
- 1989 Dr Mervyn K Smith CBE
- 1990 Dr Kathleen Woodroffe
- 1991 Dr Reg C Sprigg AO
- 1992 Sir Russel Tullie Madigan OBE
- 1993 Kenneth Berndt
- 1994 Joan Brewer AM
- 1995 Milton Spurling
- 1996 Dr James A Bonnin
- 1997 Dr Alan Kerr Grant AO
- 1998 The Hon Dr Samuel J Jacobs AO
- 1999 Dr Harry Medlin
- 2000 Emeritus Professor Tasman Brown
- 2001 Dr Rex Lipman AO
- 2002 Professor Fay Gale
- 2003 Dr Jeanette Linn OAM
- 2004 The Honourable Justice Leslie T Olsson
- 2005 Mathew Wilfred Anthonisz
- 2006 Elizabeth Silsbury OAM
- 2007 The Most Reverend Dr Ian George AO
- 2008 John Halbert MBE
- 2009 Professor Richard Deane Terrell AO
- 2010 Robert Cowan (Bob)
- 2011 Ken Allen AM
- 2012 Professor Richard Blandy (Dick)
- 2013 Dr Cheong Choong Kong
- 2014 The Hon Margaret Nyland AM
- 2015 Professor Rob Morrison OAM
- 2016 Professor Jock Findlay AO
- 2017 Emeritus Professor John Taplin
- 2018 Dr Baden Teague
- 2019 Professor Julian Disney AO
- 2021 The Honourable Catherine Branson AC KC
- 2022 Professor Emeritus David Lewis

## Graduates, Diplomates, Alumni

The Enabling State Government Legislation in 1990 for the mergers between the University of Adelaide, Roseworthy Agricultural College and the City Campus of the South Australian College of Advanced Education conferred graduate status upon holders of University Awards, regulated by the Statutes and Regulations. Accordingly, all diploma holders and some certificate holders are known as graduates in the same way as those with degrees.

## Acknowledgements

The Golden Jubilee Commemoration Ceremony and Reunion Luncheon were organised by External Engagement staff.

We would like to acknowledge the University of Adelaide Archives office for helping prepare this event.

A very special thank you to our volunteer Ellen Randva (B Sc 1973) for her help in compiling the Commemoration Book, and photographer, Jo-Anna Robinson.

# University of Adelaide Graduates 1972

Class of 1972 Golden Jubilee

Advanced Diploma in Teaching

Dowling, Brendan (dec)

Bachelor of Agricultural Science

Baruzzi, John  
Bowden, Ian

# Class of 1972

Class of 1972 Golden Jubilee

Class of 1972 Golden Jubilee

# 1972 Alumni profiles

## Dr Peter Bauer

### Qualifications

Bachelor of Medicine, Bachelor of Surgery (University of Adelaide, 1972)

Diploma of the Royal College of Obstetricians and Gynaecologists

### Honours and awards

Fellow of the Australian College of Rural and Remote Medicine

### University memories

The era of pre-employment – I loved university life. It was grossly enjoyable as it was the 60s.

### Career and life accomplishments

Working in Bangladesh was my most wonderful achievement, and it certainly changed my life for the better.

Rural general practice was certainly the most rewarding.

### Advice to your 20-year-old self

Study a little harder.

## John Butler OAM

### Qualifications

Bachelor of Arts (University of Adelaide, 1969)

Diploma in Teaching (Secondary Teaching) (University of Adelaide, 1969)

Bachelor of Arts (Hons) (University of Adelaide, 1972)

Graduate Dipolma Curriculum Development

### Honours and awards

FACE (Fellow of the Australian College of Educators) 1995

OAM (Medal of the Order of Australia) 2006 for services to education, particularly in the field of geography, as a teacher, author and administrator, and to the community

### University memories

Being a student at the University of Adelaide in the 1960s was an immersive experience. Most of us did not have part-time jobs, and we spent all of each day at university. The Barr Smith Library, the Refectory and the Cloisters were favourite hang-outs.

University opened my eyes to so much that was new, and it expanded my interests. Like many of my generation, my parents had only attended primary school, so university was a foreign world to them, but they recognised how it would shape my future.

I had some of my best experiences from participating in university societies. Through them, I went on weekend camps, travelled interstate to national conferences, and received experience in elected leadership positions.

### Career and life accomplishments

I had always wanted to be a teacher, and university (together with the Adelaide Teachers College) prepared me well.

I enjoyed 40 years in my career as a teacher, advisor, writer, curriculum developer, and administrator.

I have enjoyed travelling widely, using my experiences in writing more than 40 geography books and in teaching.

I have always enjoyed working with students and helping them to achieve their aims.

In my personal life, marriage has given me great pleasures, and so have eight grandchildren. I was very fortunate to recover from cancer when I was 25.

After retiring from full-time teaching, I have enjoyed being employed as a casual academic teaching university students who are learning to be teachers.

### Advice to your 20-year-old self

Believe in yourself – take on tasks that at first seem beyond you. Keep reading and learning. Knowledge and thinking are always to be valued in yourself and others. Be kind to all, both in manner and in actions.

“

**Believe in yourself –  
take on tasks that at  
first seem beyond you.”**

**John Butler OAM**

## Dr William (Bill) Carey PSM

### Qualifications

Bachelor of Science (University of Adelaide, 1966)

Bachelor of Science (Hons) (University of Adelaide, 1967)

PhD (University of Adelaide, 1972)

### Honours and awards

PSM (Public Service Medal). Queen's Birthday Honours, 1995. Awarded 'in recognition of service to public service in the field of prenatal and post-natal diagnosis of inherited metabolic disorders'

### University memories

Getting to meet and know so many different people with like minds. Being taught and mentored by wonderful, caring people – Prof Bill Elliott (Honours supervisor) and Julian Wells (PhD supervisor). I owe my life's work to these two.

Relaxing on the Barr Smith lawns with friends.

Skipping the occasional lecture when the surf was up.

Some interesting (unsupervised) experiments on the Organic Chemistry balcony. And, of course, the Pre-Prosh Prang(s).

How good it was when exams were over.

### Career and life accomplishments

Helping to establish and lead the National Referral Laboratory for the diagnosis of inherited genetic disorders at the Adelaide Children's Hospital and working with a group of dedicated scientists, technicians and researchers in and around my laboratory.

Being awarded the South Australian Public Service Medal in the Queen's Birthday Honours in 1995.

### Advice to your 20-year-old self

University studies might be hard work, but those years will be among the best of your life. Enjoy them while you're there.

## Dr Igor Cernavin

### Qualifications

Bachelor of Dental Surgery (University of Adelaide, 1972)  
Master of Dental Science (University of Melbourne, 1992)

### Honours and awards

Honorary Senior Fellow (University of Melbourne) in recognition of dedication to dental education and voluntary contribution to the teaching programs of the School of Dental Science.

WFLD World Federation for Laser Dentistry Certificate of Service for services contributed to the Asia Pacific Division World Federation for Laser Dentistry.

### University memories

The attention paid to us as students by our teachers and the friendship with our fellow students.

### Career and life accomplishments

Teaching students and graduates in Australia and overseas and representing Australia at various international conferences. Lasers in dentistry research and teaching.

### Advice to your 20-year-old self

Attitude and effort are all important. Never give up.

## Nicola Colasante

### Qualifications

Bachelor of Science (University of Adelaide, 1972)  
Diploma in Education (University of Adelaide, 1973)  
Graduate Diploma in Instructional Uses of Computers

### University memories

Working long hours with some inspiring individuals, particularly in biochemistry (genetics) and microbiology.

Prosh days, social gatherings, friendships formed. As a first-year student crowding in a lecture theatre to watch the televised 1969 Apollo 11 and Neil Armstrong landing on the moon.

### Career and life accomplishments

Fifty years of happy marriage, and I've been blessed with two wonderful children and, so far, four amazing grandchildren.

I've had a successful and enjoyable career in Secondary Education, teaching Science and Information Technology for over 31 years.

My involvement in the development of IT Curriculum, the acquisition of IT Infrastructure and the training of staff in ways to use IT in their curriculum areas in a number of SA schools.

### Advice to your 20-year-old self

Enjoy your life. Work hard and embrace all the life challenges ahead.

## Damian Connelly

### Qualifications

Bachelor of Applied Science, The University of Adelaide, 1972

### University memories

Lunchtime with fellow students and discussions over lunch. Working part-time jobs to survive and long hours studying close to exams. The support of fellow students who became lifelong friends. Support and career guidance from passionate University staff.

### Career and life accomplishments

In 1988, I founded METS Engineering Group which operates in the minerals, oil and gas sectors and employs approximately 40 engineers in Perth, Western Australia. I am internationally recognised as a specialist with extractive metallurgy.

A consulting engineer with extensive experience in the gold, copper, lithium, lead, zinc, uranium and iron ore industries with particular emphasis on gold, I am fortunate to enjoy a global career and have spent significant time in North and South America, South East Asia, Africa and Europe.

The last 30+ years working as a consultant metallurgist for mining, banking and engineering companies has afforded me a wealth of experience. I am a Registered Expert Witness and have been engaged on many cases.

### Advice to your 20-year-old self

It's about lifelong learning; getting a degree is only the start. It's not just about IQ – EQ is equally important for career development. Finally, it's not where you start but where you finish that's important.

## Emeritus Professor Glen Deacon

### Qualifications

Bachelor of Science (University of Adelaide, 1957)  
Bachelor of Science (Hons) (University of Adelaide, 1958)  
PhD (University of Adelaide, 1962)  
Doctor of Science (University of Adelaide, 1972)

### Career and life accomplishments

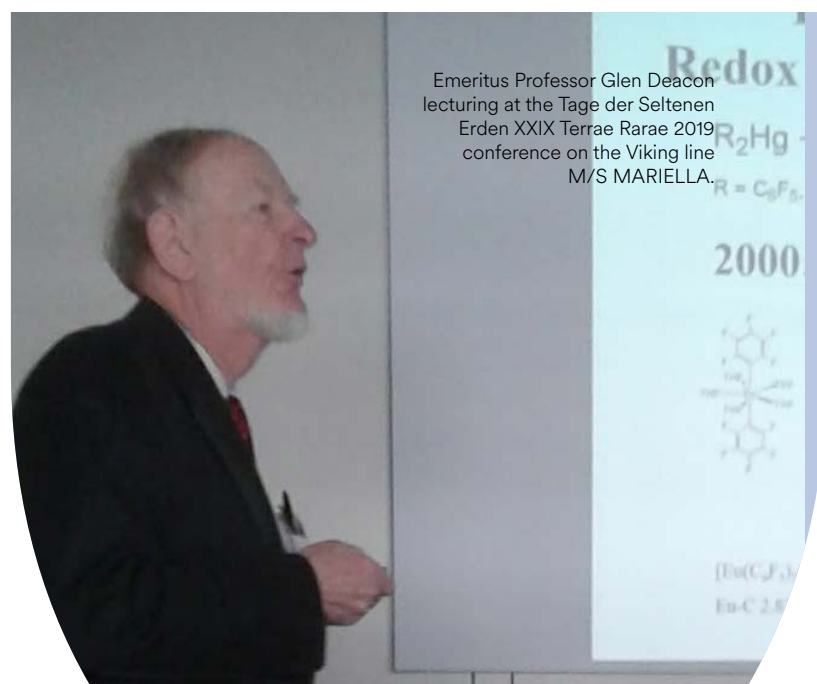

I graduated with a BSc (Hons) (HI) and PhD from the University of Adelaide (CSIRO and AAEC scholarships, an ICIANZ Fellowship, and the Senior Tutorship at Lincoln College).

I have achieved international recognition in several areas of inorganic and inorganic materials chemistry, particularly the chemistry of main group elements, rare earths, precious metals (including platinum anti-cancer compounds), small cyano anions, new materials (semi-conductor dopants and precursors) and corrosion inhibitors.

I have received extensive research funding both alone and in research teams, and am involved in extensive research collaboration globally. I have supervised or jointly supervised 24 postdoctoral workers, 16 research assistants and more than 50 PhD, 4 MSc, 6 M Env Sci and over 70 BSc (Hons) graduates. Over 600 papers have been published in refereed journals and several book chapters have been published. I have conducted considerable consulting and contract research for industry and government agencies, and a patent is in commercial use.

I have held visiting lectureships at the University of Western Australia and the University of Sydney, as well as guest positions at many universities around the world including the University of London, and numerous German universities.

From 2002-2004, I served on the Committee of Experts of the Australian Research Council (ARC). In 2006, I was awarded the Terra Rarae Prize for Rare Earth Chemistry and in 2007 received the Burrows Award of the Royal Australian Chemical Institute for Inorganic Chemistry. In 2020, I was appointed to an Honorary Professorship in the Institute for Frontier Materials (IFM) at Deakin University.

**David Dewar PHF FACEL**

**Qualifications**

- Bachelor of Arts (University of Adelaide, 1972)
- Diploma in Education (University of Adelaide, 1975)
- Diploma in Teaching (Primary)

**Honours and awards**

- PHF (Paul Harris Fellow 2022 for services to Rotary International)
- FACEL (Fellow Australian Council of Education Leaders 2022)
- Life Memberships Royal Lifesaving Society (SA 1995, National 2006 and Commonwealth 2013)
- Service Cross 1999 and Bar 2004
- Commonwealth Council Royal Lifesaving Society
- Meritorious Service Award 2001
- Royal Life Saving Society Australia
- Honorary Life Governor
- Royal Lifesaving Society SA 2008

**University memories**

University of Adelaide Squadron; Refectory; inspiring lecturers in geography and psychology; chairing the Alumni Cornell Chapter; supporting the new Medical, Nursing and Dentistry School; tutoring the Dip Ed (Primary) students.

**Career and life accomplishments**

I served the education profession as a teacher, principal, lecturer in education, director, Teachers Institute Association President, and home education manager. During my extensive career in education, I led the Institute of Teachers campaign for merit selection and helped design and implement the merit selection procedures for the Education Department, SA.

Colin Thiele appointed me to lecture and tutor in psycholinguistics and English at the University of South Australia, which I did for 18 years. During that time, I helped write the Language Arts Curriculum for the Education Department and also chaired the implementation committee, which created nationally acclaimed teacher in-service courses.

David Dewar, accepting ACES Fellowship

In 1984 I was seconded as Principal of St. Francis of Assisi, Newton, including being made co-chair of the Catholic Principals Association. In 1985 I co-founded and chaired the Adult Skills Employment Services (ASK), which has empowered over 20,000 people across Australia to gain employment.

I recently worked on the education department's change review team for volunteers, and I have supported numerous school leadership teams for the past 21 years, specialising in change management processes.

I have been a member, instructor, trainer, and examiner of the Royal Lifesaving Society for 52 years. I chaired the board for 14 years and am currently a state and national director and have personally saved several children and adults from drowning. I led the first vacation aquatics program for the education department in 1975 and for five years ran the first DEET-funded courses for professional pool lifeguards. I have also worked in Cambodia on drowning prevention and children's education, contributing to the United Nations report on child drownings in Asia.

I served as Youth Director and President of the Rotary Club of Burnside and am a National Youth Science Forum director. I was made a Paul Harris Fellow of Rotary International.

Raising a family of eight children, 15 grandchildren and six great-grandchildren.

**Advice to your 20-year-old self**

Work with other students in a faculty each week to spread the workload and share the learning. Study what you are passionate about and join in campus activities and societies.

**Felice Di Fiore**

**Qualifications**

- Bachelor of Pharmacy (University of Adelaide, 1972)

**University memories**

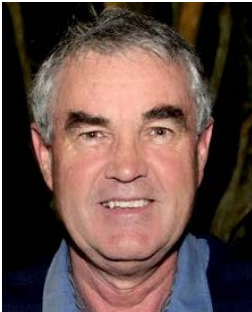

Meeting in the Refectory with friends; listening to bands play on the lawns; Prosh week; Friday afternoon political demonstrations down King William Street. Relaxing between lectures (before part-time jobs). Cheap overseas movies in Union Hall.

**Career and life accomplishments**

My family: my wife and our three children, all of whom are in the health profession, and our grandchildren.

**Advice to your 20-year-old self**

Evaluate all the information available and make the best decision you can make at the time. Don't make the same mistake twice; there are plenty of new different mistakes to be made. Question everything.

**Kym Dixon**

**Qualifications**

- Bachelor of Science (University of Adelaide, 1972)
- Diploma in Education (University of Adelaide, 1979)

## John Ellis

### Qualifications

Roseworthy Diploma in Agriculture (University of Adelaide, 1970)

Roseworthy Diploma in Oenology (University of Adelaide, 1972)

Honours and awards

Centenary Medal 2000, for services to tourism and the wine industry

### University memories

Our time at Roseworthy was a time for creating enduring friendships. We learned and gained great practical skills which set us up for life.

### Career and life accomplishments

As a winemaker, I have had extraordinary opportunities to work with great people. John Vickery, Yalumba, Bob Oatley and Peter Tisdall are a few.

As a judge of wine (a 40-year career), I've been blessed to work with luminaries like Len Evans, Chris Pfeiffer, Ray Healey, Ian McKenzie, Tony Jordon and Louisa Rose.

Vice President and Board Member of the Federation of Australian Winemakers over a 10-year period; and was Chairman of the Ministerial Advisory Committee for Victorian Food and Wine Tourism, awarded 'Most Outstanding Contribution by an Individual' by Tourism Victoria in 2007.

With family, we established the Hanging Rock Winery in 1983; and the Hanging Rock Speckle Park Cattle Stud in 2012, winning the Supreme Speckle Park exhibit at the Royal Melbourne Show in 2015, 2018 and 2019.

Married to Ann Tyrrell, four children and seven grandchildren.

### Advice to your 20-year-old self

Get involved in your industry at all levels. Any contribution you make will be returned many fold and with interest.

## Dr Graham Fleming AM

### Qualifications

Bachelor of Medicine, Bachelor of Surgery (University of Adelaide, 1972)

Bachelor of Commerce (University of South Australia, 2000)

Doctor of Medicine (University of Adelaide, 2007)

### Honours and awards

AM 2014, for significant service to medicine in rural South Australia and as an advocate in the field of mental health and suicide prevention.

### University memories

While preclinical years were a struggle, clinical years in hospitals reassured me I had made the correct career path.

Collegiate relationships that involved constant teaching and learning were memorable.

### Career and life accomplishments

Becoming a competent rural and remote generalist medical practitioner, training registrars in rural practice.

Reducing the burden on mental health in my community and reducing suicide. Assessing the mental health of students and devising a management plan that restores them to excellent mental health and to bright futures.

### Advice to your 20-year-old self

Persist, stay focused but constantly look laterally.

## Dr Peter Fleming

### Qualifications

Bachelor of Science (University of Adelaide, 1965)

Bachelor of Science (Hons), (University of Adelaide, 1966)

PhD (University of Adelaide, 1972)

### University memories

My fondest student memory is from when a few of us mounted a hoax which much delayed a late morning session of the earth sciences section of a 1969 national ANZAAS conference, when we mounted a convincing display purporting to be moon rocks supplied by NASA from the Apollo 11 Moon Landing. We pooled our scant cash to hire a security guard with sidearm to lend credibility to the exhibition. Queues of eminent academics quickly formed to view the samples instead of returning to their seats after the tea break. The hoodwinking event was reported in newspapers around the world.

### Career and life accomplishments

I am quietly proud of my adaptability to have taught across a wide range of earth science specialities and to publish research papers in a similarly wide range of specialities, from structural and metamorphic geology to experimental petrology to palaeontology. I'm also proud of extensive teaching not only in lecture theatres, in laboratories, but also in numerous field trips into the distant outdoors in different continents. Students became lifelong friends who still keep in contact to this day. Some became professors, some heads of mining companies, some teachers, some environmental scientists, etc.

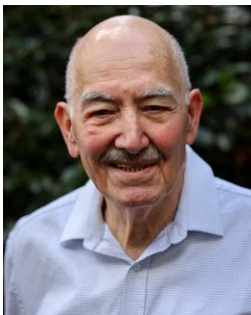

### Advice to your 20-year-old self

Shun the occasional unbidden sense of impostor syndrome. Personally, I would often find myself with an unfamiliar set of responsibilities and somehow managed to make a reasonable fist of things. A sense of being unworthy because one is new to the area is not fair on oneself.

Dr Peter Fleming, Golden wedding anniversary with grandchildren 2019.

## Dr William Balint Gara

### Qualifications

Bachelor of Science (University of Adelaide, 1966)

Bachelor of Science (Hons) (University of Adelaide, 1967)

PhD (University of Adelaide, 1972)

### Honours and awards

George Murray Travel Award 1971 – travel to the United Kingdom for post-doctoral research – for the quality of the PhD thesis.

Chartered Chemist (CCChem).

Fellow of the Royal Australian Chemical Institute 2010 (achievements in my professional life).

### University memories

I really enjoyed my membership of the Sports Association and, in particular, as a player and administrator of the Adelaide University Men's Hockey Club – especially the many Intervarsity trips with the boys. I also enjoyed my time as a postgraduate student in the Department of Organic Chemistry, making friends with fellow researchers and staff members.

### Career and life accomplishments

I am very proud of the seven years (1984–1994) that I spent in Amsterdam, having been headhunted from Australia as the Head of Materials Science Department at the R&D Headquarters of Van Leer Packaging Worldwide. This gave my young children the opportunity to spend seven formative years in Europe. We explored many parts of Europe and went skiing twice a year which was great fun.

### Advice to your 20-year-old self

Learn lots about how to do well in office/departmental politics.

Gara family: middle row – Dr Gara with wife Malka, daughter-in-law Monique and grandson Joshua; front row – granddaughter Lauren; back row – grandsons Jeremy and Adam and sons Daniel (the father of all four children) and Michael.

## Dr Michael Gerrard

### Qualifications

Bachelor of Science (Hons) (University of Adelaide, 1972)

PhD (Imperial College, London, 1976)

### University memories

Mountain Club activities (rock climbing, caving, 24-hour orienteering), Judo Intervarsity in Melbourne, various balls, and parties with fellow students. Inspiring lecturers include Ren Potts, Charles Pearce and Ernie Tuck (Applied Maths), Jane Pitman (Pure Maths), Mike Brooks (Computing), and Don Stranks (Chemistry).

### Career and life accomplishments

Making computers do useful stuff for a very wide range of clients, and developing computer skills in many students.

### Advice to your 20-year-old self

Friendships and good health are very important. Always make an effort to maintain both.

## Dr Leon Gianneschi

### Qualifications

Bachelor of Science (University of Adelaide, 1972)

Bachelor of Science (Honours) (University of Adelaide, 1973)

PhD (University of Adelaide, 1978)

### University memories

The whole experience, particularly from second year, was both challenging and fun. The 70s were special!

### Career and life accomplishments

President and CEO of a multinational company.

Five granddaughters and living in the USA.

### Advice to your 20-year-old self

Hard decisions can be made to work out. Don't fear the unknown.

## Dr Brett Gooden

### Qualifications

Bachelor of Medicine, Bachelor of Surgery (University of Adelaide, 1967)

Doctor of Medicine (University of Adelaide, 1972)

PhD (University of Nottingham, 1978)

### Honours and awards

Fulbright Scholar 1972

### University memories

Best memory was my time spent with Dr Earl Hackett in his extra-curriculum pathology course, *Experimental Pathology*. He taught me the basic methodology of physiological research and the excitement of discovery.

Lecturing and researching diving and aerospace medicine.

Discovering new facets of physiology in humans and other animals.

### Career and life accomplishments

Teaching and lecturing space medicine and space physiology.

Co-authoring '*Diving and Asphyxia. A comparative study of animals and man*', A Physiological Society Monograph, 1983.

Co-authoring '*Echidna. Extraordinary Egg-laying Mammal*', 2006.

Authoring '*Natter. Manned Missile of the Third Reich. Historic step to human spaceflight*', 2019.

### Advice to your 20-year-old self

Never give up your dream, no matter how hard the road is. Follow your heart, no matter what the cost.

## Brian Harris

### Qualifications

Bachelor of Science (University of Adelaide, 1972)  
 Diploma in Education (University of Adelaide, 1973)  
 Graduate Diploma in Educational Administration  
 (University of Adelaide, 1987)  
 Bachelor of Special Education (Flinders University)  
 Masters in Educational Administration (Deakin University)

### Honours and awards

Prince of Wales Award for services to Intercountry Adopted Children

### University memories

Movies in Union Hall, sitting on the Barr Smith Lawns, Uni balls, making friendships that have lasted a lifetime, watching the first moon landing in the refectory. A portrait of me sitting in a deck chair hangs in the refectory.

### Career and life accomplishments

Serving as a public school principal for 16 years. Teaching in the northern suburbs of Adelaide for over 30 years.

### Advice to your 20-year-old self

Think clearly about your strengths, as this will better inform your career direction.

**Brian Harris (right) with artist, Bill Cook, whose iconic artwork 'The Guru' now hangs in the Refectory.**

## Professor William Heddle AM RFD (Retd)

### Qualifications

Bachelor of Medicine, Bachelor of Surgery  
 (University of Adelaide, 1972)  
 Doctor of Medicine (Flinders University)

### Honours and awards

Fellow of the Royal Australasian College of Physicians  
 Fellow of the Cardiac Society of Australia and New Zealand  
 Reserve Force Decoration (RFD)  
 AM (2022) for significant service to cardiology, tertiary education, and professional associations

### University memories

Interaction with fellow medical students; teaching ward rounds and tutorials with the late Dr Richard Pellew and Dr Richard Burns.

Playing football with the 'Blacks' for a number of seasons.

Single studies piano with Mr Lance Dossor.

### Career and life accomplishments

Medical career (cardiology), including studying with world leaders in the Netherlands; academic career including teaching many medical students, physician trainees, and cardiology trainees.

Military service with operational experience in East Timor.

### Advice to your 20-year-old self

You will be surprised at what you can achieve.

## Graham Jenkins

### Qualifications

Bachelor of Science (University of Adelaide, 1966)  
 Bachelor of Engineering (Electrical) (Hons) (University of Adelaide, 1968)  
 Master of Engineering (Electrical) (University of Adelaide, 1972)

### University memories

I enjoyed the intellectual challenge of my science and engineering studies. And I loved the social and physical interaction that came with my membership in the University of Adelaide Squash Team.

### Career and life accomplishments

I'm especially proud of the work I've done in high performance computing at the Victorian Partnership for Advanced Education. I continue my association with the University by joining current students and alumni in its team at the City to Bay event each year.

### Advice to your 20-year-old self

Stay fit, stay curious and embrace every opportunity that comes your way.

## Joseph (Vince) Johnson

### Qualifications

Bachelor of Science (University of Adelaide, 1972)  
 Diploma in Teaching (Primary) (University of South Australia)

### University memories

The chance to combine uni with study at Western Teachers College was irreplaceable. Times and friends were magic in the late 60s.

One night, at the Uni Dive Club wetsuit workshop, I was standing with a similarly enthusiastic mixed group of underwear-clad students drawing biro lines on each other to measure up for our templates. Later, when deep in marine botany in the Southern Ocean near Robe, I appreciated how well it worked.

### Career and life accomplishments

It's hard to beat the lightbulb moment on a learner's face when they suddenly understand a solution.

I will forever enjoy my son's progress from his First Class Honours Science degree in genetics/immunology and now his PhD.

Hugely enormous is the privilege of glimpsing eternity through grandchildren.

### Advice to your 20-year-old self

Let advice from others inform your judgement, but don't let them cloud it. Take the time to believe in what you truly want, because you can achieve it.

## Josephina (Jo) Jordan (formerly Juchniewicz)

### Qualifications

Bachelor of Arts (Hons) (University of Adelaide, 1972)  
 Graduate Diploma in Education (University of Adelaide, 1987)  
 Graduate Diploma in Mediation (Family)

### Honours and awards

International Women's Day Women's Suffrage Celebration Year Award 1994  
 Civil Celebrants' Graduate Association (Monash) Award 2008

### University memories

Exploring the depths of literature and music, reading widely at the Barr Smith Library, Moratorium marches, performing in the play Bartholomew Fair, lunchtime concerts at Elder Hall, and meeting and getting to know the student who became my husband.

### Career and life accomplishments

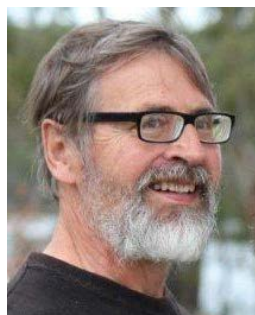

Creating a loving family with my husband, Joseph Juchniewicz, working as a teacher and librarian, establishing my business as a civil celebrant, appointed Presiding Clerk of Quakers in Australia in 2016, attending Quaker World Gathering at Peru in 2016, and being a manager of the Quaker Shop.

### Advice to your 20-year-old self

Work towards the place where you feel led.

Jo Jordan at her graduation with her mother Ruth Jordan.

## Dr Gottfried (Godfrey) Kunze

### Qualifications

Bachelor of Medicine, Bachelor of Surgery (University of Adelaide, 1972)

Diploma in Obstetrics

Graduate Diploma in Family Medicine (Monash University)

### University memories

Meeting my future wife. And being the first member of my family to attain a University degree.

### Career and life accomplishments

Being a Rural GP in Nuriootpa for 40 years.

Publishing '*Eclectic Therapy*' in 2014.

### Advice to your 20-year-old self

Enact and follow your dreams.

## Dr Marie Kunze (nee Keller)

### Qualifications

Bachelor of Medicine, Bachelor of Surgery (University of Adelaide, 1972)

Diploma in Family Planning

### University memories

Friendships made. And meeting my future husband and marrying him at the end of fourth-year medicine.

### Career and life accomplishments

Rural general practice.

Being a wife and mother and becoming part of the Barossa community.

### Advice to your 20-year-old self

Live each day fully.

## Emeritus Professor David Lewis

### Qualifications

Bachelor of Science (University of Adelaide, 1972)

Bachelor of Science (Hons) (University of Adelaide, 1973)

PhD (University of Adelaide, 1980)

Doctor of Science (University of Adelaide, 2012)

### Honours and awards

2019 Markovnikov Diploma and Medal for Outstanding Achievement in Organic Chemistry (Lomonosov Moscow State University, Russia)

2018 HIST Award for Outstanding Achievement in the History of Chemistry (American Chemical Society for the History of Chemistry)

2016 University Faculty Excellence in Scholarship Award (University of Wisconsin-Eau Claire)

2012 Inaugural WisMEF Innovation Scholar (Wisconsin Medical Entrepreneurship Foundation)

2015 and 2017 International Fellow Award (University of Wisconsin-Eau Claire)

Fellow of the Royal Australian Chemical Institute; Fellow of the Royal Society of Chemistry

ACS Division of the History of Chemistry: Chair-Elect, 2002; Chair, 2003-2004; Immediate Past Chair, 2005-2006

### University memories

Harry Medlin, for clearing the Bragg Lecture Theatre for his Physics I class, on July 21, 1969.

Staff and students of the Department of Organic Chemistry have become lifelong friends, especially John Bowie, who has been a mentor for the last 40 years.

The lunches at the Refectory with friends remain a fond memory for me (despite their disdain for my choice of liver and onions as the main course).

David Lewis and daughter, fellow Adelaide graduates, Sept 2012.

### Career and life accomplishments

My proudest life accomplishments are my 44-year marriage to my wife, Debbie, and becoming the father of our two children.

My career has been spent in the U.S., beginning as a lecturer in chemistry at the University of Arkansas in 1979 and culminating in 25 years as a Professor of Chemistry at the University of Wisconsin-Eau Claire.

I became a world expert in the history of organic chemistry in Russia, for which I received the Markovnikov medal in 2019 and the HIST Award in 2018. In 2016, my papers on the history of organic chemistry were translated into Russian.

I received the D.Sc. from Adelaide in 2012, the day before our daughter received her B.A.

### Advice to your 20-year-old self

Procrastination is like an infection: if you wait until everything is perfect, things only get worse.

## Lachlan (Laucian) McLaren

### Qualifications

Roseworthy Diploma in Agriculture (University of Adelaide, 1971)

Roseworthy Diploma in Agricultural Technology (University of Adelaide, 1972)

Graduate of the Australian Institute of Company Directors

### University memories

Lifelong connection with other students at Roseworthy.

Career and life accomplishments.

A very unexpected and satisfying career in PIRSA – Executive Director.

### Advice to your 20-year-old self

Base your most important life decisions on where your heart is.

## Sandi McMenamin

### Qualifications

Bachelor of Music (University of Adelaide 1972)

### University memories

Piano lessons with Richard Meale and Lance Dossor; musically directing theatre at Scott Theatre; Adelaide Teachers College; late-night study at the Barr Smith Library; and helping out my sister for an hour when she was chained to Parliament House steps for a week in protest against the Vietnam War.

### Career and life accomplishments

My parents were very musical – my mother was a teacher and coloratura soprano, and my father was a pianist and a band director at Hamilton Secondary College. They encouraged me in classical piano training leading to my Bachelor of Music studies at Adelaide University.

At that time, musical theatre was frowned upon at the Conservatorium, but my experiences at both the Conservatorium and Adelaide Teachers College led to professional musical theatre work, songwriting, high school music teaching, music arranging, choir leading, accompanying, piano teaching, and eventually solo cabaret performance.

I travelled far and wide as a piano bar entertainer in piano bars, clubs, and concert halls in Europe, London, the Middle East, Africa, Asia, and of course, Australia.

My three albums of original compositions are all available online, and I have many videos on YouTube.

I am extremely proud of my two daughters, Catherine and Alison, and my six grandchildren.

I am very proud to be an unofficial ambassador of Adelaide, and South Australia in song, especially with my compositions *Adelaide you're a lady*, *Spirit of South Australia*, and *The sea dragon coast*.

### Advice to your 20-year-old self

Have confidence in yourself and in your opinion.

## Dr Francis (Frank) Morgan

### Qualifications

Bachelor of Science (University of Adelaide, 1971)

Bachelor of Science (Hons) (University of Adelaide, 1972)

Master of Science (University of Adelaide, 1977)

PhD (University of Western Australia)

Diploma in Education (University of Melbourne)

## Peter Muller

### Qualifications

Bachelor of Arts (University of Adelaide, 1972)

Bachelor of Education (SACAE, 1982)

### Honours and awards

Tourism South East Award 2000

Penola Australia Day Citizen of the Year 2006

Lions Melvin Jones Fellow 2009-10

### University memories

Four exciting, stimulating years of reading history and German, and meeting my future wife.

### Career and life accomplishments

Becoming a teacher; 12 months exchange teacher in German Gymnasium; Professional Assistant to Directors General of Education Alby Jones and John Steinle; Principal of Penola High School 1982-2001; community involvement with Lions, SE Regional Health Service, TAFE Council, SE Country Arts, chairing Penola Hospital Board and Penola Coonawarra Arts Festival and my term as a Wattle Range Councillor.

However, most importantly, my loving marriage of 55 years, the happy marriages of our two children, our five grandchildren, and maintaining a ten-acre vineyard with a lawn tennis court among the vines, all of which provide a splendid sense of purpose and wellbeing in an active and fulfilling retirement.

### Advice to your 20-year-old self

Enjoy your university life and work hard.

**Dr Philip Nicholls**

**Qualifications**

Bachelor of Laws (University of Adelaide, 1972)  
Master of Environmental Studies (University of Adelaide, 1997)  
PhD (University of Adelaide, 2002)

**University memories**

Completing my degrees and my PhD at the University of Adelaide.

**Advice to your 20-year-old self**

Persist.

**Robert O'Shannassy**

**Qualifications**

Bachelor of Pharmacy (University of Adelaide, 1972)

**Honours and awards**

Fellowship of the Society of Hospital Pharmacists (F.S.H.P)  
Academic: Parke Davis Prize (1972), Pharmaceutical Defence Prize – Pharmaceutics (1972)  
Adelaide University Sports Awards: Blue (Cricket 1968), Club Letters (Service to Cricket 2018), Life Membership (2021)

**University memories**

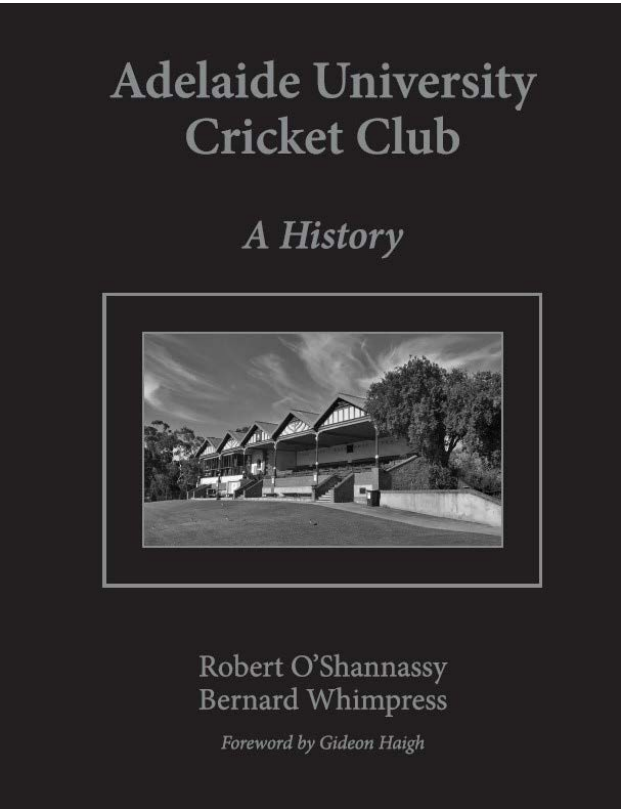

Great memories of my student years and making lifelong friends both through the profession and through playing sport for Adelaide University (cricket club). I have maintained a continuous association with the Adelaide University Cricket Club as a player, coach and historian. Last year I was awarded life-membership of Adelaide University Sport and, in 2022, published 'Adelaide University Cricket Club – A History', co-authored with sports historian Bernard Whimpress.

**Career and life accomplishments**

Proud of my 40 years of contributions to the profession, working in hospital pharmacy, pharmaceutical industry (F.H. Faulding) and community pharmacy.

**Advice to your 20-year-old self**

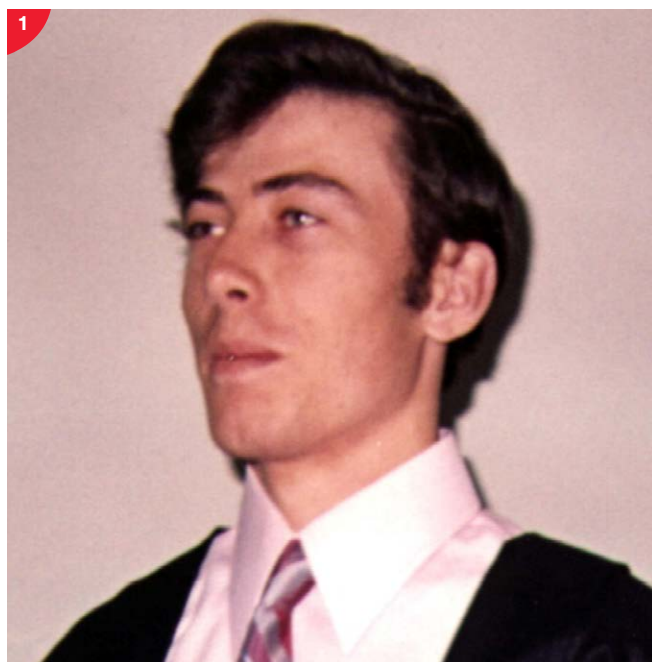

Don't do anything much differently. Enjoy a good work/life balance and explore opportunities when they arise to see where they might take you.

Above: Robert O'Shannassy co-authored the book on the history of the Adelaide University Cricket Club with Bernard Whimpress in 2022.  
Right: Robert O'Shannassy, awarded Club Letters for services to cricket by the Adelaide University Sports Association Inc.

100th of 1972 Centenary Jubilee

St Ann's and St Mark's combined choir 1970.

Stephanie Page at St Ann's College 1969.

**Stephanie Page**

**Qualifications**

Bachelor of Arts (University of Adelaide, 1972)  
 Bachelor of Social Administration (Flinders University)  
 Senior Executive Programme (London Business School)

**University memories**

Highlights for me were the extra curricula variety, to the detriment of my studies, I fear. I joined lots of clubs and societies and living just up the hill at St Ann's (women only in those days), there were lots of joint activities with the men's colleges.

Singing in St Peter's Cathedral every Sunday as part of the St Ann's/St Mark's choir (see photo attached), competing in co-ed swimming carnivals, football games and the like, acting in Thornton Wilder's *Skin of Our Teeth* with Aquinas College, directed by Ralph Middenway, in the Union Theatre – these were a wonderful part of studying at Adelaide Uni at that time.

**Career and life accomplishments**

My major interest was always public policy and its implementation. I worked for three governments – PNG, Commonwealth and South Australia. Moving from one level of government to another, you can see where the gaps are and where policies aren't working. I mainly worked in early childhood, health, education and inter-government relations.

My best work was done in bringing people together across levels of government and outside of government to set national standards, bridge the gaps in service delivery, and to work more collaboratively.

**Advice to your 20-year-old self**

Don't be so anxious, and just give it a go.

**Alan Palmer**

### Qualifications

Bachelor of Engineering (Mechanical) (University of Adelaide, 1972)

### University memories

My involvement in the University Car Club and Engineering Society and the organisational/management skills I learnt as a result.

A paper plane launched from the mechanical engineering building and was last seen going into a window of the economics building.

A Prosh week stunt involving a Holden car and the University footbridge.

My fellow students and those in the mechanical engineering department who taught us.

### Career and life accomplishments

My proudest career accomplishment was leading a multidisciplinary research team from four public and private organisations as part of a national project.

And, my proudest life accomplishments are my 48-year marriage to my late wife, the two children it produced and being able to baptise my greatgrandson.

### Advice to your 20-year-old self

Keep your plans flexible – they will change as circumstances change. Respect Murphy and his law.

**Neil Paulett**

### Qualifications

Diploma in Agricultural Science (Longerenong Agricultural College, 1970)

Roseworthy Diploma in Oenology (University of Adelaide, 1972)

### University memories

Living with a group of young men that became family. Sharing together, including, as a group with an average age of about 24, being gated for two weeks after winning the athletics sports with fourth year Ag. Two weeks locked in after coming back late from the pub, which, even in those days, seemed quite bizarre. Life was good and constant fun interspersed with study.

### Career and life accomplishments

Several proud career moments. First, landing a job with Penfolds. This was the start of good years in the corporate world. The second was being brave enough to leave this security and establish and sustain our own business successfully.

My life accomplishments concern family. Meeting and marrying a wonderful girl who has been such a rock and given us amazing children, who in turn have given us amazing grandchildren. Life is good.

### Advice to your 20-year-old self

Put your head down and give your academic life your most. You will be in the workforce for a long time, and with an education, you can choose. Choose to use it or not, but without it, your choices will be limited.

**Emeritus Professor David Prideaux**

### Qualifications

Bachelor of Arts (Hons) (University of Adelaide, 1972)

Master of Education (with Merit) (University of New England, 1977)

PhD (Flinders University, 1989)

### Honours and awards

The ANZAME Award for Achievement in Medical Education 2004

Outstanding Staff Achievement Award Flinders University 2010

### University memories

Expanding my learning and knowledge through both the formal and informal curricula. My time at university was a time of turbulence and social change. I gained a set of values based on social justice that remain with me today.

### Career and life accomplishments

Being the first in my family to attend university. Building careers in teaching, teacher education and medical education, culminating in a Professorship at Flinders University and the naming of a centre after me on retirement. Having opportunities to travel and work overseas and being able to share them with my family. Watching my family grow and develop and build careers of their own.

### Advice to your 20-year-old self

Trust in yourself because with the learnings you have gained, and with the support of your family, you will be able to do things you never dreamed of.

**Kay Rodda**

### Qualifications

Bachelor of Arts (University of Adelaide, 1972)

Diploma in Education (University of Adelaide, 1973)

Graduate Certificate TESOL (Flinders, 2012)

### University memories

English tutorials, Frank Dalziel's psych lectures, Fencing club, the Refectory for first Chinese food, Evangelical Union friends, and the old Barr Smith reading room.

### Career and life accomplishments

I'm not rich, famous or powerful, but I'm happy with my life. I've moved out of my safe niche into different experiences. After university, I taught high school English and French for 12 years. Then I resigned and moved to Sydney, where I was self-employed, designing and painting silk scarves for nine years, wholesaling to upmarket shops. In 1994, I requalified as an ESL teacher and taught at UNSW Institute of Languages for 11 years.

In 2005, I moved to Hong Kong and worked as teacher and English consultant in Chinese high schools for five years. I travelled extensively during that time. I returned to Adelaide in 2010 and, in 2012, upgraded the Cert TESOL to a Grad Cert TESOL. From that time to the present, I have been teaching migrants at TAFE SA. I enjoy interacting with the huge diversity of people, from business migrants to refugees, and hopefully making a positive contribution during a time of huge transition in their lives.

### Advice to your 20-year-old self

You are clever and sensible. Have confidence in yourself. Don't be afraid to make changes and try new things.

Time will go very fast.

**Emeritus Professor Malcolm Silver**

**Qualifications**

Bachelor of Medicine, Bachelor of Surgery (University of Adelaide, 1957)  
 Master of Science 1961  
 Doctor of Medicine (University of Adelaide, 1972)  
 PhD (McGill University, Canada)

**Honours and awards**

Fellow of the Royal College of Pathologists Australasia  
 Fellow of the Royal College of Physicians of Canada  
 Diploma (Anatomic Pathology) American Boards  
 Fellow of the Canadian Cardiovascular Society  
 Distinguished Service Award, Department of Pathology, University of Toronto (Co-Recipient)  
 1995 Distinguished Achievement Award, Society for Cardiovascular Pathology

**University memories**

Eating lunch and wooing my (late) wife-to-be Meredith Silver (nee Galloway) in the Botanic Gardens during final years of the medical course.

**Career and life accomplishments**

Most of my professional life was spent in the Department of Pathology at the University of Toronto (Chair, 1985–1995) or in Department of Pathology at Western University in London, Ontario (Chair, 1978–1985). As Chairs, I held cross appointments as Chief of Pathology at Toronto General Hospital and University Hospital in London, Ontario.

My main interest was in cardiovascular pathology, and I instituted a multi-authored text in the subject, editing land co-editing through three editions.

**Advice to your 20-year-old self**

Define your path and follow it at full tilt.

**Dr Peter Tunbridge**

**Qualifications**

Bachelor of Science (University of Adelaide, 1972)  
 Bachelor of Medicine, Bachelor of Surgery (University of Adelaide, 1978)

**University memories**

Frank Dalziel's lectures in psychology and mimicking Lorenzo's grey leg geese.

**Career and life accomplishments**

Forty-five years of service to the community as a GP.

**Advice to your 20-year-old self**

If someone else can do it, it means you can, and not only that but do it better!

**Dr Mary Boyd Turner**

**Qualifications**

Bachelor of Medicine, Bachelor of Surgery (University of Adelaide, 1972)  
 Diploma in Child and Community Health  
 Master of Healthcare Administration  
 Master of Business Administration

**Honours and awards**

Fellow, Royal Australasian College of Physicians  
 Fellow, Royal Australian College of Medical Administrators

**University memories**

Meeting people and making friends whom I still see regularly.

**Career and life accomplishments**

In Victoria, a key contributor to establishing the state-wide Cancer Services System based on the model of comprehensive cancer services integrating research and medical, surgical and radiation oncology, and also establishing the state-wide neonatal hearing screening program.

**Advice to your 20-year-old self**

Be more strategic, consider the things I want in my life and develop a plan to achieve these whilst recognising that priorities may change over time.

**Adjunct Associate Professor Adrian Vicary**

**Qualifications**

Bachelor of Arts (University of Adelaide, 1970)  
 Bachelor of Arts (Hons) (University of Adelaide, 1971)  
 Diploma in Education (University of Adelaide, 1972)  
 Master of Arts (University of Adelaide, 1983)  
 PhD (Flinders University, 1999)

**University memories**

I had great teachers and mentors in the disciplines of politics, history and education. Their wisdom, encouragement and advice prepared me well for my activities in education, social policy and international engagement in later life. At a time of enlightened activism, I was elected as the first student representative to the University of Adelaide Council. I enjoyed the collegiality between students and academic and professional staff in decision-making.

**Career and life accomplishments**

After teaching politics for four years at Adelaide, I had a career spanning 40 years at the SA Institute of Technology and the University of South Australia from 1975 to my retirement in 2014. I held senior academic and management positions, retiring with the position of Dean: International and External Engagement. During this time, I participated in decision-making in education and social policy forums, and represented the SA higher education sector in state, national and international forums. I continue to play a role in advocacy for the inclusion of arts and culture in international engagement and wellbeing. I am equally proud of my adult children who continue to achieve their aspirations in their different fields.

**Advice to your 20-year-old self**

Don't be daunted by leaving high school after completing third year. Your work experience in banking will prepare you well for study as a mature-age student at teachers college and university.

## Peter Walkerden

### Qualifications

Bachelor of Science (University of Adelaide, 1972)

Bachelor of Science (Hons) (University of Adelaide, 1973)

### University memories

Good times in the various mathematics disciplines with good lecturers and tutors, meeting new colleagues but stressful exam times and long hours of study. Also, the Refectory!

### Career and life accomplishments

A long career in computing-related applications in government culminating in an enjoyable last 20 years at Forensic Science SA with a great bunch of coworkers in various disciplines. Now happily retired with fond memories.

### Advice to your 20-year-old self

Enjoy the experience.

## John Waterhouse

### Qualifications

Bachelor of Science (Hons) (University of Adelaide, 1972)

Master of Science (Flinders University)

### Honours and awards

Fellow, Australasian Institute of Mining and Metallurgy

Fellow, Institution of Engineers Australia

### University memories

Apart from the joy of actually being at university, learning so much about geology and, it must be said, zoology, it being quite fascinating.

Meeting my wife!

I could add actually passing enough mathematics and physics to proceed with Geology II.

### Advice to your 20-year-old self

Follow what you find interesting, not the almighty dollar.

## Dr Peter White

### Qualifications

Bachelor of Science (University of Adelaide, 1967)

Bachelor of Science (Hons) (University of Adelaide, 1968)

PhD (University of Adelaide, 1972)

### Honours and awards

Chartered Chemist (Royal Australian Chemical Institute)

### University memories

A daily highlight was lunching on the lawns outside the Refectory (and collecting discarded drink bottles for the three pence per bottle). The Union Hall also provided splendid weekly films, dramatic and other productions and occasional visiting lecturers (memorably Singapore's Lee Kwan Yew, shortly after Singapore left the newly formed Malaysian Federation, and eminent Australian journalist Rohan Rivett, colourfully describing Sukarno's Indonesia). Otherwise, in between lectures, the best place to study and revise was in the 'stacks' in the Barr Smith Library!

### Career and life accomplishments

1971–1973 Department of Chemistry, University of Cambridge, UK

1973–1974 Department of Chemistry, University of Newcastle, NSW

1974–1977 CSIRO Division of Food Research, Sydney, NSW

1978–1981 Australian Patent Office, Canberra, ACT

1981–2015 Australian Public Service Departments of Productivity, Industry Science and Technology, Industry Technology and Commerce, Treasury, and Industry Science and Resources, Canberra, ACT

In 1968, I married Evelyn Haas (Bachelor of Arts, University of Adelaide, 1967). We have two children, Felix (born 1977) and Imogen (born 1981), and two grandchildren, Samuel (born 2017) and Gwen (born 2000).

### Advice to your 20-year-old self

Work as hard as you can at whatever life brings, keep fit and pursue as many extracurricular activities as you can, treasure your family and don't hesitate to change your goals as the circumstances require.

## Trevor Wilkins

### Qualifications

Bachelor of Arts (University of Adelaide, 1972)

Bachelor of Social Administration

Bachelor of International Studies (University of Adelaide, 2020)

### University memories

Introduction to viewpoints/ideas entirely out of the school purview.

Protests about the Vietnam war and other social issues.

The social life, making lifelong friends from all walks of life and disciplines!

### Career and life accomplishments

Working in a variety of health and welfare settings.

State Manager of Commonwealth Rehabilitation Service.

### Advice to your 20-year-old self

Get into the library more often!

**Robin Wilson**

**Qualifications**

Bachelor of Agricultural Science (University of Adelaide, 1972)

**Honours and awards**

Triticum award 2019 – Wheat Breeding Society award for Excellence in Wheat Breeding

**Career and life accomplishments**

I was a wheat breeder for nearly 40 years: 10 at Roseworthy College SA, 25 in the Department of Agriculture and Food WA, and five in InterGrain.

I was the principal breeder of 18 wheat varieties. Of these, Wyalkatchem, Bonnie Rock, Carnamah, Westonia, Arrino and Magenta became major varieties. Wyalkatchem was the leading variety in WA and SA for many years and has been used as a major parent in the development of many other successful wheat varieties from all companies.

Since retiring from InterGrain in 2014, I have been a plant breeding consultant with the Integrated Breeding Platform (IBP) interfacing software and the plant breeders of many crops in Africa, Asia and Australia.

I am also enjoying time with family, and am a proud grandfather of twin nine-year-old granddaughters.

Gil Hollamby presents Triticum award to Robin Wilson, 2019.

- 1. On Dit 31st May, 1972
- 2. Organic Chemistry staff and students, 1972
- 3. On Dit - Prosh, 1970
- 4. Roseworthy Dip Oenology students, 1971
- 5. Prosh Day program, On Dit, 1970

# 1972 Golden Jubilee Class Gift

Traditionally, the Golden Jubilee class makes a collective gift marking the special occasion of 50 years since their graduation from university.

The Class Gift supports the Augustus Short Scholarships for talented students, for whom a University of Adelaide education would not be possible without financial support.

Georgie is a Bachelor of Science (Advanced) third-year student and Augustus Short Scholarship recipient who credits her mother's strong work ethic for motivating her to pursue her studies and reach her full potential.

"When I was in Year 9, I fled a volatile home situation with my Mum and we became homeless overnight.

"For the first few months, we couch-surfed at friends' places before Mum found a small unit for us. Mum went without a lot of things for several years just so she could pay my school fees and I could focus on my studies."

An ambitious future geologist, Georgie found that the Augustus Short scholarship, combined with part-time work during the summer break, allowed her to focus 100% on her studies during the university year, without the pressure to undertake extra shifts.

Georgie undertook a three-month placement as a mine geologist in North-West Queensland.

"Gaining work experience with a globally renowned mining company while being just two years into my degree was monumental for me," Georgie said.

## Changing lives through scholarships

The University of Adelaide's first Vice-Chancellor, Dr Augustus Short, believed that tertiary education should be accessible to all students of high academic merit, regardless of birth or wealth. Named in his honour and funded through donors' generous support, Augustus Short Scholarships are available to students of outstanding academic ability who come from rural or remote areas, challenging financial circumstances or another disadvantage. To date, Augustus Short Scholarships have supported 66 students through their degrees.

Thanks to the support from generous donors, and the Golden Jubilee Class Gift, the Augustus Short Scholarship continues to change lives. Please join us today to achieve the target of \$25,000 as the gift from the Class of 1972.

**Your gift will impact the lives of students at the University for decades to come.**

Make a gift today by completing the donation form, calling us on (08) 8313 5800 or by visiting [give.adelaide.edu.au/golden-jubilee-class-gift](https://give.adelaide.edu.au/golden-jubilee-class-gift)

  
**66**

Augustus Short  
Scholarships awarded  
since 2003

**"I am convinced I would not have had the successes I've experienced while studying at the University of Adelaide without the help of the scholarship."**

**Georgie**  
Augustus Short Scholarship recipient

### **Kaurna acknowledgement**

We acknowledge and pay our respects to the Kaurna people, the original custodians of the Adelaide Plains and the land on which the University of Adelaide's campuses at North Terrace, Waite, and Roseworthy are built. We acknowledge the deep feelings of attachment and relationship of the Kaurna people to country and we respect and value their past, present and ongoing connection to the land and cultural beliefs. The University continues to develop respectful and reciprocal relationships with all Indigenous peoples in Australia, and with other Indigenous peoples throughout the world.
